

IQeye 5 Series IP Camera

The IQeye 5 Series delivers outstanding image quality in an attractive, low-profile package. This megapixel camera line offers VGA, HD 480p, HD 720p, 1.3MP and even 2.0MP resolution. The IQeye 5 Series cameras are perfect for retail shops, schools and offices where you need to balance discrete with deterrence.

Every IQeye 5 Series is a low-power, progressive scan camera that can be powered over the Ethernet or directly via AC or DC. It also includes an analog output for focusing, making installations and retrofits easy.

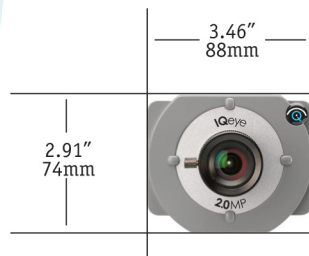

The IQeye 5 Series cameras are supported by all the leading NVR/DVR manufacturers and include IQinVision's industry leading image quality and reliability.
